Half Height

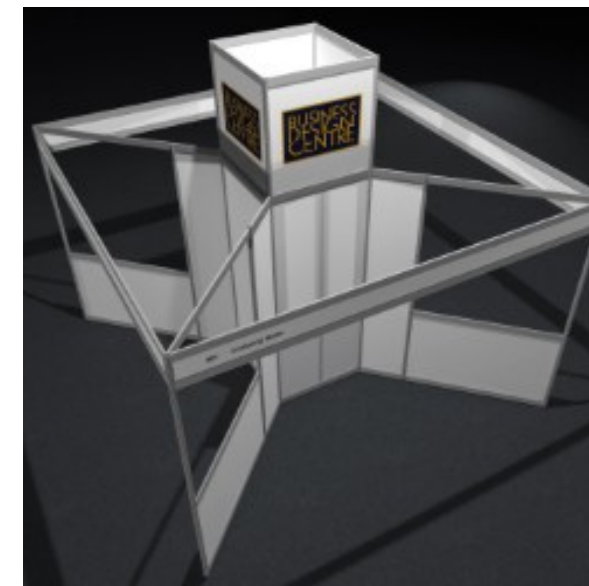

1-to-1 meeting zone

We have the opportunity to create shell scheme packages that will include a discount on stand electrics.

Counters

Box Toppers

Shell scheme is a tied service to the BDC. Please contact your Venue Manager for more information and quotes.

Shell Scheme Extras

1. Shelf Options

Flat or Sloping - 1m Long x 300mm deep. Ideal for exhibits or literature.

2. Garment Rail

1m long rail ideal for hanging merchandise (hangers not included).

3. Floor

Platform/Covering

Any stands wishing to carpet or provide flooring must have floor ply or a platform (note, the venue is fully carpeted)

4. Aluminium Floor Edging

Any stands wishing to lay carpet must have aluminium edging.

5. Ceiling Muslin

Semi-transparent ceiling covering can be fitted on top of the ceiling grid. Available in black and white.

6. Slat Walling

1m wide Slat Walling finished in white. This full height walling is suitable for hooks (hooks and shelves not included.)

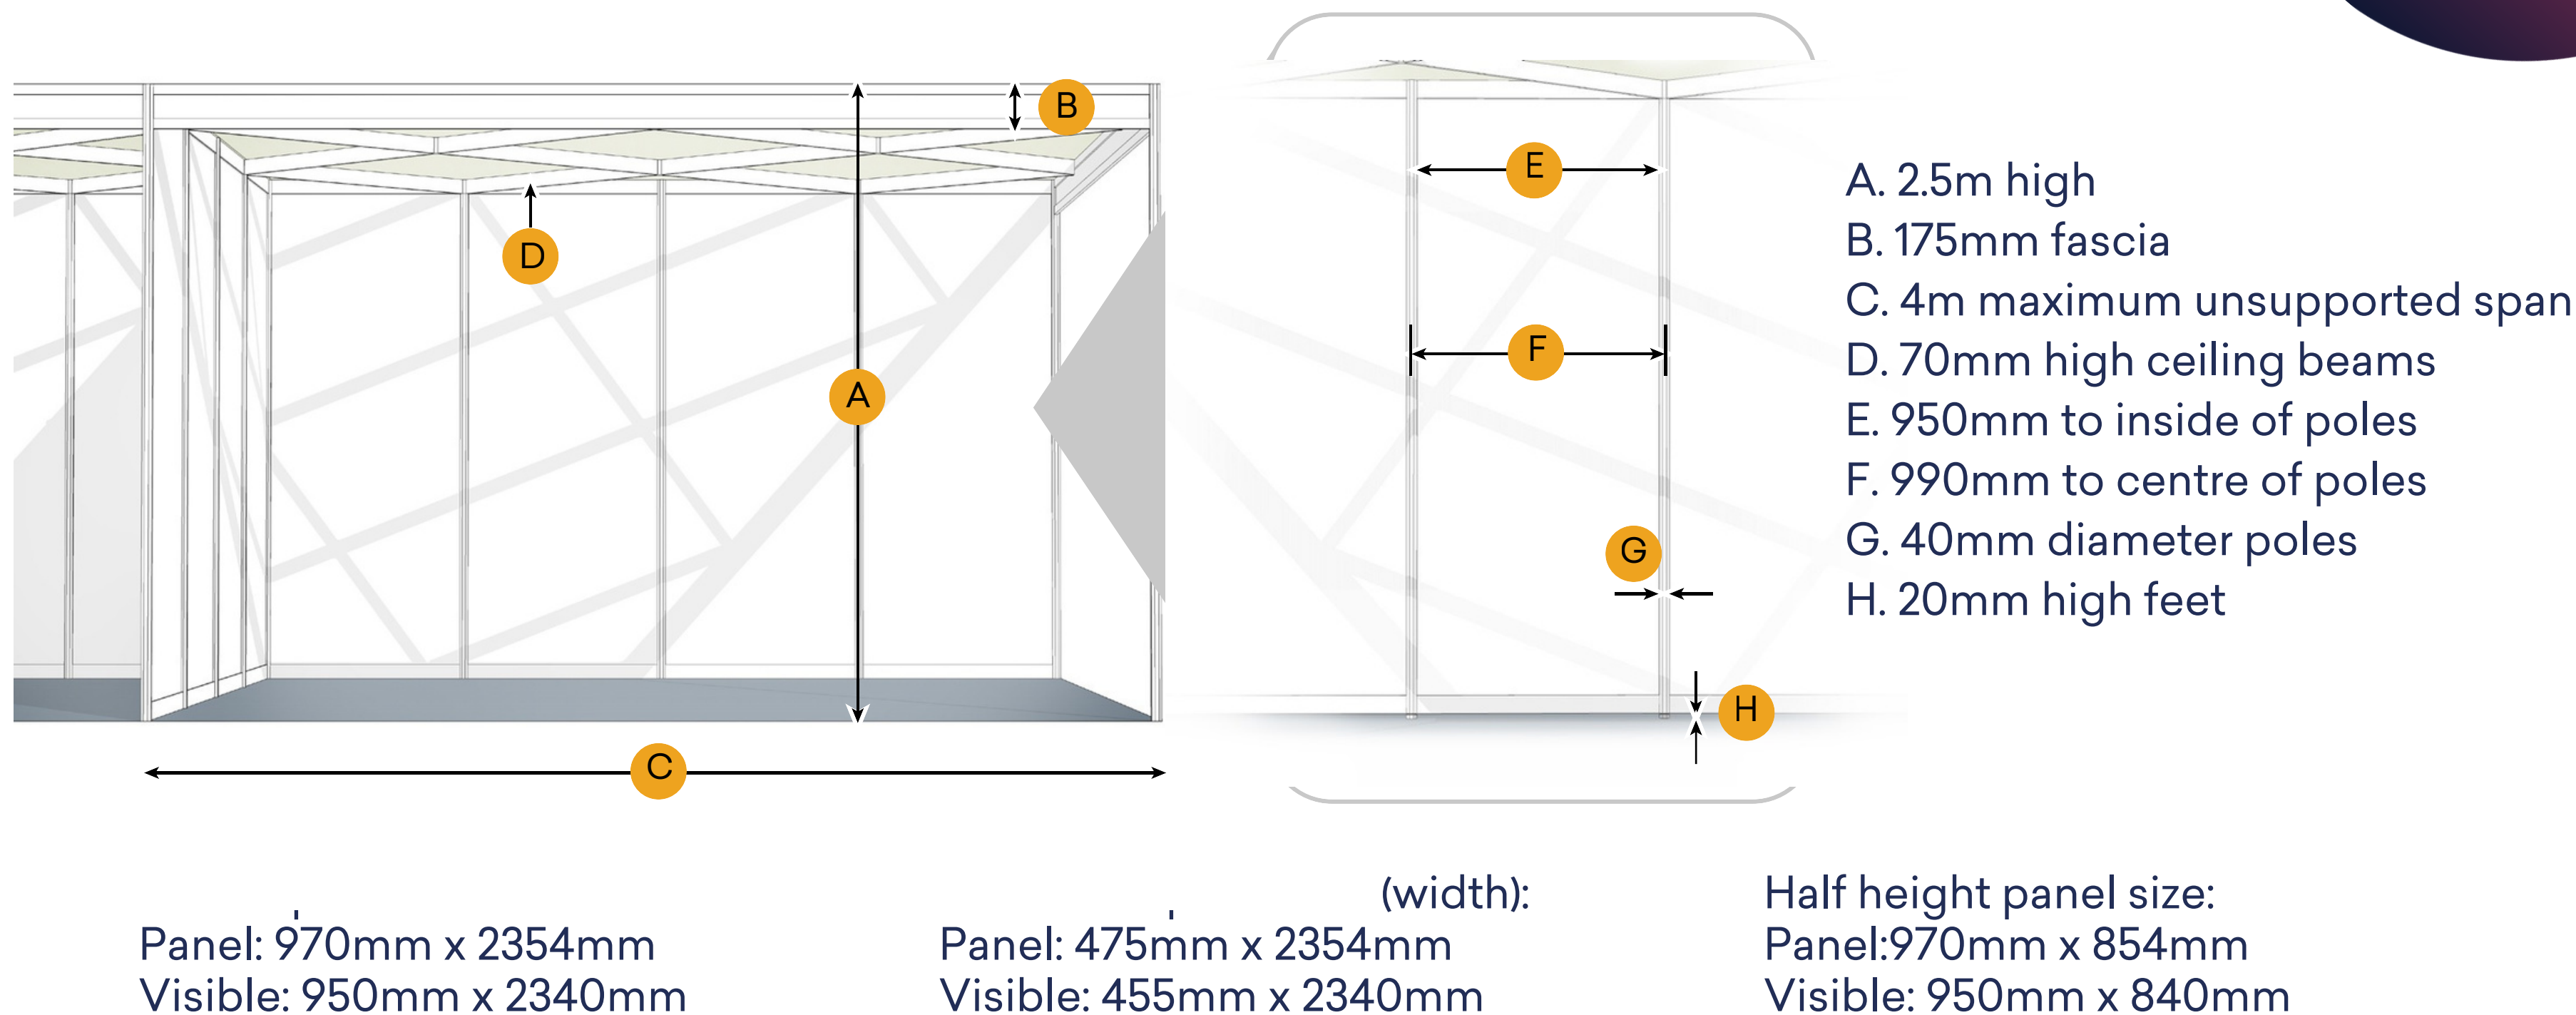

7. Storage Area

1m x 1m Full Height Storage Area with Lockable Door perfect to create separate storage or cloakroom.

8. MDF Cladded Panel

Required for exhibitors that would like to mount TV's or heavier items to their stand.

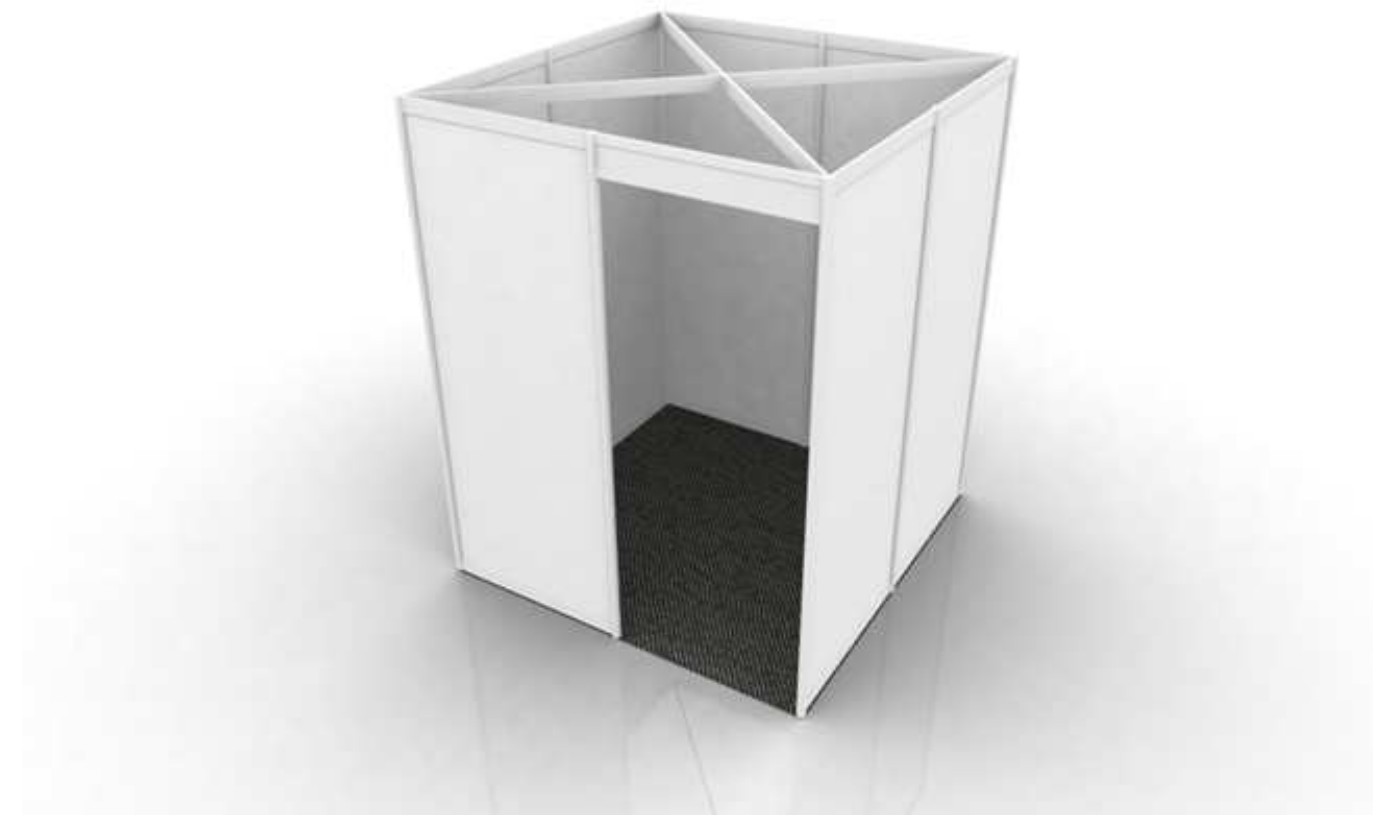

Shell Scheme Specification

Please note: low adhesive material is to be used when installing graphics on to our panels.

Meeting Rooms

The meeting rooms are designed to create professional, organised spaces ideal for discussions and presentations.

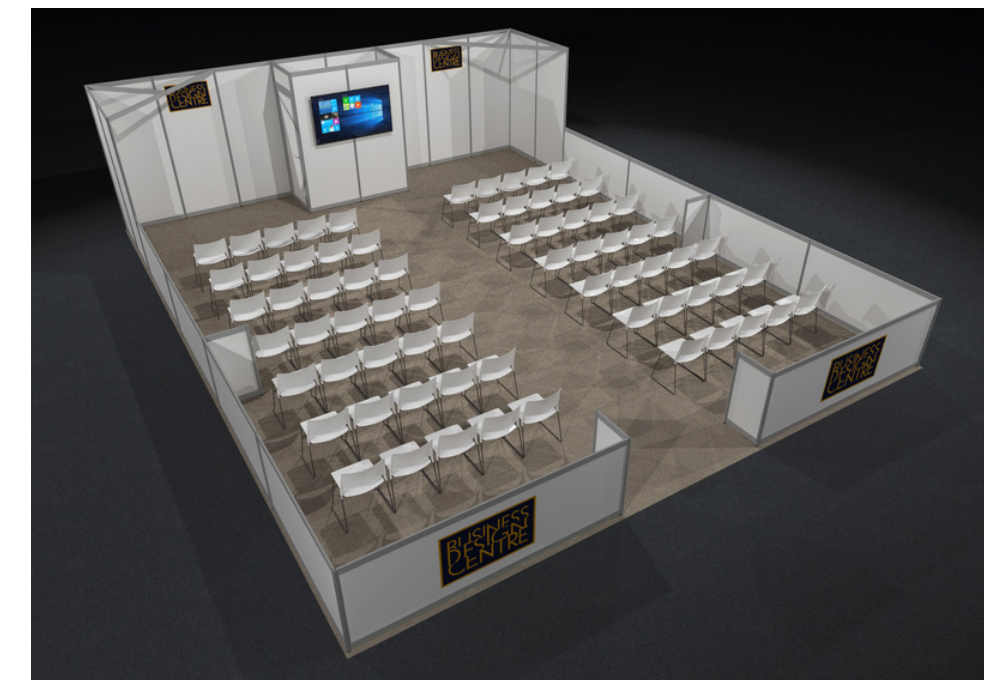

There is the option to add perspex windows, a lockable door and a muslin ceiling to create an enhanced meeting room.

Walling

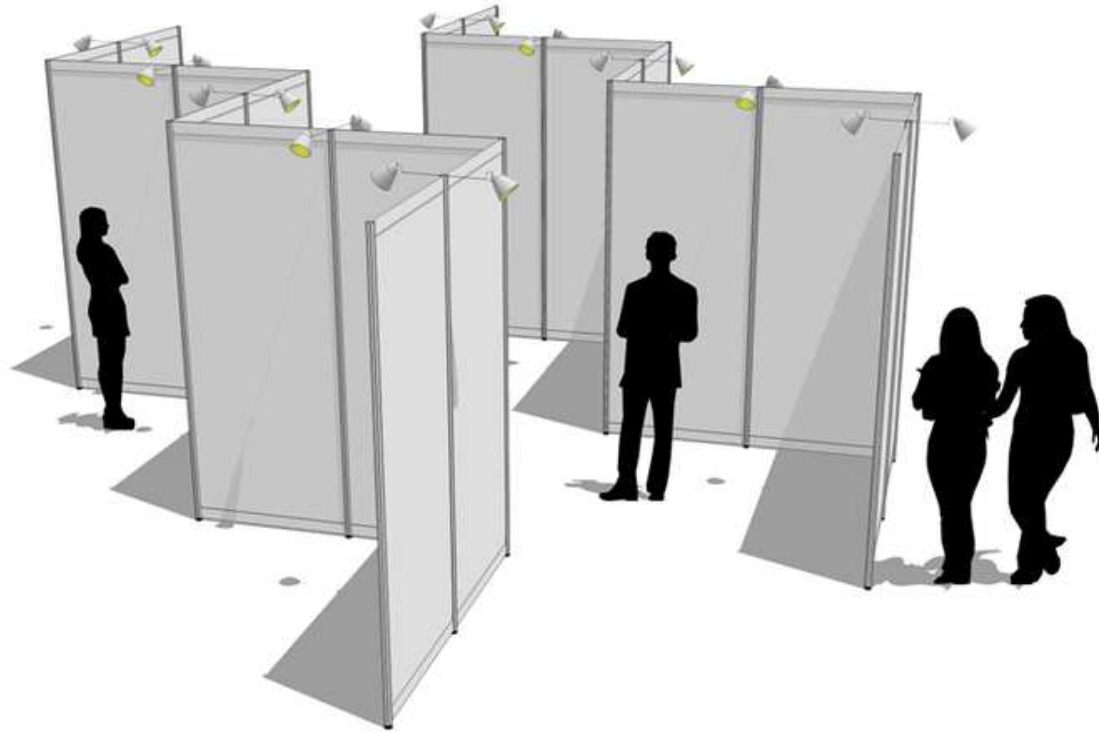

There are a range of walling options which can be built from shell scheme, including both linear and box walling in full height or half height formats.

These can be used to enclose stages, lounges, VIP Areas, or other dedicated zones within your event space. Walling not only helps define areas but also offers a range of branding opportunities.

Enhance visual appeal and exposure by branding the shell scheme panels.

Signage & Poster Boards

We can provide shell scheme poster boards, which offer a versatile and impactful way to display information, promote your brand or showcase your business.

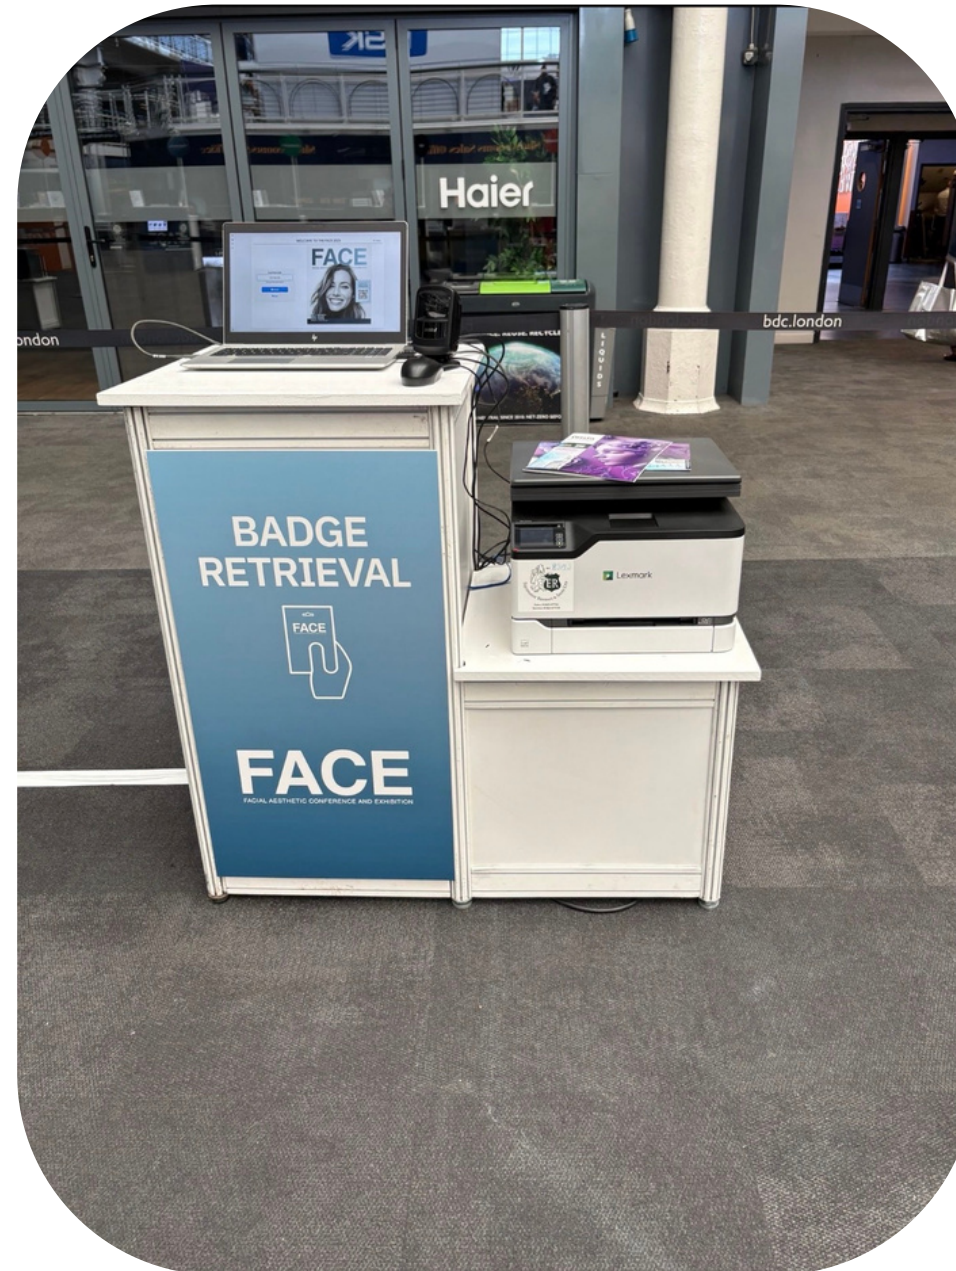

Individual shell scheme signs can be created to highlight key areas within the event space (branding to be arranged separately).

Bespoke Shell Builds

Looking to create something more tailored? Our bespoke build options allow you to enhance your stand beyond the standard shell scheme, creating a practical and visually impactful space that reflects your brand/event.

From functional elements such as catalogue bins and branded plinths to fully dressed catering and lounge areas, our team can look to create custom build features to suit your event requirements.

Lightboxes & Tension Frames

In partnership with Onward Display, these 100% recyclable lightboxes and tension frames offer a simple and impactful way to elevate your stand at the Business Design Centre.

1m x 2m Lightbox

2m x 2m Lightbox

3m x 2m or 4m x 2m Tension Frame

Shell Scheme FAQ's

Can I fix materials to the wall panels?

The finish on the wall panels is white Foamex. You may not fix anything to the wall panels using nails, staples, double-sided tape, pins or screws. The recommended fixings method is double sided Velcro or low tac materials, but please DO NOT apply to the metal work. If you need to purchase some or are unsure on your fixing method, please visit the Service Desk.

What about removing materials?

Please ensure all Velcro, graphics and stand decorations are removed and taken off site. Please note that a charge will apply for anything not removed. If you have queries about this, contact your Project Manager.

What is Octanorm?

It's a Modular system of aluminium poles and beams holding 4mm infill panels. These form the walls of the shell stands.

Is there a ceiling?

There is an open grid ceiling of 70mm beams fixed diagonally over the stand, but you can order a muslin ceiling separately.

What is the FASCIA constructed of?

This is formed of the same system, 175mm deep.

**For more information on the options available
to you, please contact your BDC Venue
Manager.**
